FOLIO

v1.1.0 Design System Update

Homepage samples now cover every document type, with refreshed guidance and aligned references.

2026-04-29

Changelog

Breaking Changes

1. BREAKING Replaced outdated homepage sample counts and removed the legacy background section; downstream screenshots should be regenerated from the new sample wall.

Features

1. Added real demo assets for one-pager, long document, letter, portfolio, and changelog types.
2. Expanded the homepage sample wall to eight clickable document cards.
3. Updated English and Chinese prompt examples to include equity reports and release notes.

Fixes

1. Aligned typography guidance around the single-serif-per-page rule used by the current templates.
2. Corrected metadata documentation to reflect `build.py` author inference behavior.
3. Removed stale counts and contradictory copy from cheatsheet, homepage, and brand profile docs.

ACKNOWLEDGEMENTS

Thanks to the contributors who reviewed the wording drift and helped keep the docs aligned with the actual templates.
